DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an information system and method thereof having, inter alia, a processor for converting the information signal into an illumination control signal, and a controller for communicating the illumination control signal to the input connection wherein the LED illumination device changes color corresponding to the information signal (claims 1 and 34). Note that claims 6-14, 18-20, 39-47 and 51-53 were indicated as allowable and claims 5 and 38 were objected in the previous Office Action. The remaining claims 2-4 and 35-37 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1-14, 18-20, 34-47 and 51-53.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
